

Project Summary of Our Humanitarian Projects.

The aim of this project is to empower individuals worldwide to create positive change in their communities.

While receiving financial rewards for their efforts.

This will promote collaboration, creativity and community solidarity.

Structure of the Project:

1. Basic Principles:

Each participant will have the opportunity to launch initiatives that will benefit their communities.

Participants can submit ideas for projects that have a direct impact, such as helping neighbours, educational programs, environmental projects, and so on.

2. Funding and Reward:

The project is funded by your unlimited resources.

For each approved project, the participant receives a base amount (e.g., \$100,000 per month) to implement the project.

Upon successful implementation and evaluation of the project, the participant may receive a percentage of the project cost (e.g., 1%) as additional compensation (\$1,000 in this example).

3. Audit and Monitoring:

A team of humanitarian aid and project management experts audits and evaluates the submitted projects.

This team ensures transparency, accountability and that funds are used effectively.

4. Community Engagement:

Local communities are encouraged to collaborate and share ideas.

Workshops and events can be organized to create awareness and inspire participants.

5. Monitoring and Evaluation:

A system will be established to track the progress of each project and measure its impact on the community.

Regular reports and feedback sessions help improve the process.

Implementation Steps:

1. Establish a Governing Body:

Establish a governing body responsible for managing the project, including experts in humanitarian aid and financial responsibility.

2. Development of a Platform:

Create an online platform where participants can submit their ideas, register projects and keep financial records.

3. Communication and Marketing:

Develop a marketing strategy to create awareness about the project and attract participants.

Use social media, local events and networking to promote the project.

4. Pilot Project:

Start a pilot project in a local community to test the model and gather feedback.

5. Scale up:

After successful implementation of the pilot, expand the project to other communities and countries.

Conclusion This project not only provides financial support for individuals who want to help others, but also fosters a culture of collaboration and creativity. It enables people to realize big dreams and make positive changes in their communities. Expert monitoring and evaluation ensure that resources are used effectively and that there is a lasting impact.

A. Food Services:

1. Sustainable agriculture techniques;

*Organize workshops and trainings on sustainable farming methods such as permaculture, organic farming and agroecology.
Offer grants or financial support to farmers who switch to sustainable techniques.*

Cost indication:

*Workshop cost indication: €100 per participant for one-day training.
Grant: Up to €1,000 for implementation of sustainable techniques.*

2. Food safety and quality;

*Developing food safety and quality guidelines in cooperation with local authorities.
Conduct inspections and education programs for food producers.
Inspection costs indication: €150 per inspection.
Education programs costs indication: €300 per session for 20 participants.*

3. Community gardens and agricultural projects;

*Starting community gardens in neighbourhoods, where residents work together to grow fruits and vegetables.
Facilitate access to land and needed materials.
Cost indication: Initial start-up costs (land, seeds, tools): €2,000 for a 100 m² garden.
Annual maintenance costs: €500.*

4. Education about food and cooking;

*Offering cooking workshops and nutrition education in local community centres.
Develop educational materials on healthy eating.
Cost Indication: Cooking workshops: €20 per participant per session.
Educational materials: €200 per set.*

5. Local food initiatives;

*Supporting local markets and farmers to sell their products directly to consumers.
Encourage the use of local ingredients in restaurants and schools.
Cost indication: Market organization: €1,000 to organize a local market.
Promotion costs for local products: €300.*

6. Reduce food waste;

Conducting campaigns to create awareness about food waste.
 Organize food collections and redistribution programs.
 Campaign cost indication: €500 per campaign.
 Food redistribution costs indication: €200 per month.

7. Access to healthy food;

Facilitating food cooperatives offering healthy and affordable products.
 Support the establishment of food banks in cooperation with local organizations.

Cost indication: Establishment costs food cooperative: €3,000.
 Operational costs food bank: €1,000 per month.

8. Strengthening the food chain;

Working with local farmers and producers to optimize the food chain.
 Invest in storage and distribution facilities.

Cost Indication: For food chain improvements: €5,000 per project.
 Annual operational cost: €1,500.

9. Ethical animal husbandry;

Supporting livestock farmers switching to ethical and sustainable livestock production methods.
 Offer training on animal friendly and sustainable management.

Cost indication: Trainings for livestock farmers: €250 per session.
 Grants for ethical animal husbandry: Up to €2,000.

10. Access to water and irrigation;

Invest in irrigation systems and water management projects in farming communities.
 Organize workshops on efficient water use.

Cost Indication: Irrigation systems: €5,000 per project.
 Workshops: € 100 per participant.

Table for payments and estimated costs:

Activity	Cost per participant/activity	Number of participants/activities	Total estimated cost
Sustainable agricultural techniques	€100	20	€2.000
Food safety and quality	€150	10	€1.500
Community gardens	€2.000 (one-time)	1	€2.000
Education about food and cooking	€20	50	€1.000
Local food initiatives	€1.000 (one-time)	1	€1.000
Reducing food waste	€500	3	€1.500
Access to healthy food	€3.000 (one-time)	1	€3.000
Strengthening the food chain	€5.000 ((one-time)	1	€5.000
Ethical animal husbandry	€250	8	€2.000
Access to water and irrigation	€5.000 (one-time)	1	€5.000

Total estimated costs: €22.500

[The New World Creators Initiative~©™.] for all Living Souls on Earth.

This approach allows participants to become involved in various food security initiatives in an engaging way that not only benefits their community, but can also increase their personal involvement and financial rewards.

B. Education:

1. Basic Education;

Provide free access to basic education in local communities. Use volunteers and local teachers to teach classes.

Cost Indication: Approximately €5,000 per class per year for materials and compensation for volunteers.

2. Secondary Education:

Working with secondary schools to develop programs focused on practical skills and vocational education.

Cost Indication: Approximately €10,000 per school year for curriculum development and teaching materials.

3. Lifelong Learning;

Creating platforms for adults to improve their skills, with online courses and local workshops.

Cost Indication: About €500 per course, with an opportunity for participants to recoup some of the cost by applying their new skills.

4. Technology education;

Introducing technology training in schools, such as programming and digital skills.

Cost Indication: Approximately €15,000 for equipment and training per school year.

5. Inclusive education;

Provide special programs for children with disabilities, with adapted learning materials and support.

Cost Indication: Approximately €20,000 per year for specialized teachers and materials.

6. Education for women and girls;

Facilitate initiatives aimed at the education of girls in disadvantaged areas.

Cost Indication: Approximately €1,000 per student per year for support and materials.

7. Educational Exchanges;

Create programs for students to have international experiences focused on cultural exchange.

Cost Indication: Approximately €3,000 per student for accommodation and program support.

8. Educational Technology;

Develop and implement educational apps and software to facilitate learning.

Cost Indication: Approximately €10,000 for development and maintenance of an educational platform.

9. Parent and community involvement;

Organize workshops for parents to involve them in their children's education.
Cost Indication: Approximately €200 per workshop.

10. Research initiatives;

Encourage and support research projects that contribute to teaching and learning.
Cost Indication: Approximately €30,000 per project, depending on scope and objectives.

Table for payments and estimated costs:

Sub-category	Estimated Cost	Payment Options
Primary education	€5,000 per class/year	Payment by local government
Secondary education	€10,000 per year	Participants pay a contribution
Lifelong learning	€500 per course	Costs can be recovered by participants
Technological education	€15,000 per school year	Grants and sponsorships
Inclusive education	€20,000 per year	Support from NGOs
Education for women and girls	€1,000 per pupil	Community funds
Educational exchanges	€3,000 per student	Scholarships and sponsorships
Educational technologies	€10,000 for platform	Payments through partners
Parents and community involvement	€200 per workshop	Participants pay a small contribution
Research initiatives	€30,000 per project	Funding from research funds

This model provides a foundation for improving education and makes it attractive for participation by both individuals and communities.

C. Healthcare:

1. Access to basic healthcare;

Provide free or affordable basic healthcare services in communities by utilizing mobile clinics and local health workers.
Cost estimate: Approximately €50,000 per mobile clinic per year.

2. Preventive care and emergency vaccination;

Organize regular health and emergency vaccination campaigns in collaboration with local health authorities.
Cost estimate: Approximately €10,000 per campaign.

3. Mental healthcare;

Provide access to mental health services, including counselling and therapy, both face-to-face and online.
Cost estimate: €100 per session, with a subsidy for low-income individuals.

[The New World Creators Initiative~©™.] for all Living Souls on Earth.

4. Health education:

Develop programs focused on healthy lifestyle choices, nutrition, and disease prevention.
Cost estimate: Approximately €2,000 per workshop or course.

5. Elderly care:

Create special care programs for the elderly, including home care and support groups.
Cost estimate: Approximately €30,000 per year for staff and materials.

6. Care for people with disabilities:

Provide specialized care and support for people with disabilities, including physical therapy and rehabilitation.

Cost estimate: Approximately €15,000 per year per patient.

7. Nutrition and food provision:

Launch healthy nutrition programs, such as community gardens and cooking workshops.
Cost estimate: Approximately €3,000 per program.

8. Alternative and complementary medicine:

Integrate complementary therapies, such as acupuncture and herbal treatments, into regular healthcare.

Cost estimate: Approximately €50 per treatment, with reimbursement options available.

9. Healthcare technology:

Implement technologies such as telehealth and electronic medical records to improve access and efficiency.

Cost estimate: Approximately €20,000 for development and implementation.

10. Community health workers (CHWs):

Train and support local health workers to improve healthcare in their communities.

Cost estimate: Approximately €5,000 per CHW per year for training and compensation.

Payment and Cost Overview:

<u>Main-category:</u>	<u>Estimated Costs:</u>	<u>Payment Options:</u>
Access to basic healthcare.	€50,000 per mobile clinic/year.	Municipal or national funds.
Preventive care and vaccinations.	€10,000 per campaign	NGO's Funding.
Mental healthcare.	€100 per sessie	Participants pay with subsidies.
Health education.	€2.000 per workshop.	Payments by participants.
Elderly care.	€30.000 per year.	Community funds and health insurers.
Care for people with disabilities.	€15,000 per year per patient.	Subsidies and NGO support.
Nutrition and food provision.	€3,000 per program.	Community participation contributions.
Alternative and complementary medicine.	€50 per treatment.	Reimbursement by health insurers.
Healthcare technology.	€20,000 for implementation.	Sponsorship and partnerships.
Community health workers (CHW's)	€5.000 per CHW per year.	Municipal subsidies.

This model provides a flexible and accessible approach to healthcare, with a focus on prevention and community involvement.

D. Housing:

1. Access to Affordable Housing:

Develop cooperative housing projects where residents are collectively responsible for management and costs.

Estimated cost: Approximately €150,000 per building (e.g., for an apartment complex).

2. Renovation of Aging Homes:

Provide subsidies and technical support for renovating outdated and unsafe homes.

Estimated cost: Approximately €25,000 per home for basic renovation.

3. Support for the Homeless:

Create temporary shelters and support programs to help homeless individuals transition to permanent housing.

Estimated cost: Approximately €50,000 per year per shelter location.

4. Sustainable Housing:

Promote the construction of energy-efficient and sustainable homes through subsidies and tax incentives.

Estimated cost: Approximately €200,000 per sustainable home.

5. Access to Water and Sanitation:

Ensure the installation of basic facilities in disadvantaged areas, including water pipelines and sanitation systems.

Estimated cost: Approximately €15,000 per project for basic facilities.

6. Housing Support Programs:

Provide financial assistance to tenants and homeowners struggling to pay rent or mortgages.

Estimated cost: Approximately €10,000 per household for temporary support.

7. Participation in Urban Planning:

Involve communities in the development and planning of housing to ensure residents' needs are addressed.

Estimated cost: Approximately €5,000 per participation project.

8. Housing Education:

Organize workshops on housing rights and responsibilities for both tenants and homeowners.

Estimated cost: Approximately €2,000 per workshop.

9. Support for Low-Income Families:

Offer special housing programs for low-income families, including access to affordable loans.

Estimated cost: Approximately €20,000 per family for support.

10. Art and Culture in Housing:

Promote integration of art and cultural elements in housing projects to enrich community spaces. (Details and cost estimates to be defined.)

Integrate Art and Culture Projects, Incorporate art and culture initiatives into new residential areas to foster a sense of community and engagement.

Estimated cost: Approximately €10,000 per project.

[The New World Creators Initiative~©™.] for all Living Souls on Earth.

Payment and Cost Overview:

Sub-Categories:	Estimated Costs:	Funding Source:
Access to Affordable Housing.	€150,000 per building.	Municipal subsidies.
Renovation of Aging Homes.	€25.000 per home.	Local government subsidies.
Support for the Homeless.	€50.000 per year.	NGO funding.
Sustainable Housing.	€200.000 per sustainable home.	Investments and tax benefits.
Access to Water and Sanitation.	€15.000 per project	Municipal funds.
Housing Support Programs.	€10.000 per household.	Rent and mortgage relief funds.
Participation in Urban Planning.	€5.000 per participation project.	Municipal subsidies.
Housing Education.	€2.000 per workshop.	Participant contributions.
Support for Low-Income Families.	€20.000 per family.	NGO supports.
Art and Culture in Housing.	€10.000 per project.	Sponsorship from local businesses.

This model focuses on creating an inclusive and sustainable housing environment that meets the needs of the community.

E. Employment:

1. Education and Skills:

Provide free or subsidized education and skills training in collaboration with local businesses and educational institutions.

Estimated cost: Approximately €5,000 per training program.

2. Start-Up Capital for Entrepreneurs:

Create a fund to support small entrepreneurs in starting or expanding their businesses, focusing on innovative ideas.

Estimated cost: Approximately €10,000 per entrepreneur

3. Workshop for Creative Professions:

Establish workshops where individuals with creative skills can collaborate, network, and produce marketable products.

Estimated cost: Approximately €20,000 per workshop.

4. Mentorship Programs:

Develop mentorship programs where experienced professionals share their knowledge with young people and beginners.

Estimated cost: Approximately €2,000 per program.

5. Flexible Workspaces:

Facilitate the development of coworking spaces for freelancers and small businesses to encourage collaboration and networking.

Estimated cost: Approximately €30,000 per coworking space.

[The New World Creators Initiative~©™.] for all Living Souls on Earth.

6. Inclusive Employment:

Encourage companies to hire individuals with disabilities or long-term unemployment through subsidies.

Estimated cost: Approximately €15,000 per employee per year.

8. Career Guidance:

Offer career counselling and coaching to help people find work aligned with their skills and interests.

Estimated cost: Approximately €1,000 per participant for a comprehensive program.

9. Networking and Events:

Organize networking events and career fairs to connect employers with job seekers.

Estimated cost: Approximately €5,000 per event.

10. Remote Work Initiatives:

Support businesses in implementing remote work options for employees, including necessary technology and training.

Estimated cost: Approximately €10,000 per company for implementation.

11. Sustainable Employment:

Promote green jobs and employment in sustainable sectors by offering training and investments in these industries.

Estimated cost: Approximately €25,000 per company for training and development.

Payment and Cost Overview:

Sub-Categories:	Estimated Costs:	Funding Source:
Education and Skills Training.	€5.000 per training program.	Municipal and EU subsidies.
Start-Up Capital for Entrepreneurs.	€10.000 per entrepreneur.	Microfinancing programs.
Workshop for Creative Professions.	€20.000 per workshop.	Local and private investments.
Mentorship-programma's	€2,000 per program.	Corporate sponsorships.
Flexible Workspaces.	€30,000 per coworking space.	Private investments and membership fees.
Inclusive Employment.	€15.000 per employee/year.	Government subsidies.
Career Guidance.	€1.000 per participant.	Participant payments.
Networking and Events.	€5.000 per event.	Participant contributions.
Remote Work Initiatives.	€10.000 per company.	Subsidies and partnerships.
Sustainable Employment.	€25.000 per company.	Investments in green projects.

This approach to employment focuses on inclusion, skills development, and fostering entrepreneurship to create a strong and sustainable labour market.

F. Environment and Sustainability.

Sustainable Environment Initiatives:

1. Sustainable Energy:

Facilitate the installation of solar panels and wind energy systems in communities through subsidies and loans.

Estimated cost: Approximately €15,000 per installation.

2. Waste Management and Recycling:

Implement local recycling programs and educational campaigns on waste reduction.

Estimated cost: Approximately €10,000 per program.

3. Green Space and Urban Agriculture:

Create community gardens and green spaces in urban areas to promote local food production and biodiversity.

Estimated cost: Approximately €5,000 per garden.

4. Water Management:

Implement rainwater harvesting and purification projects to improve water conservation and quality.

Estimated cost: Approximately €20,000 per project.

5. Awareness and Education:

Organize workshops and campaigns to raise community awareness about environmental issues and sustainable practices.

Estimated cost: Approximately €2,000 per campaign.

6. Sustainable Transport:

Promote cycling and public transport through infrastructure improvements and subsidies.

Estimated cost: Approximately €25,000 per infrastructure project.

7. Ecosystem Restoration:

Execute projects to restore local ecosystems, such as reforestation and habitat protection.

Estimated cost: Approximately €30,000 per project.

8. Sustainable Agriculture:

Support local farmers in transitioning to sustainable practices, including organic and regenerative methods.

Estimated cost: Approximately €10,000 per farm for training and implementation.

9. Circular Economy:

Encourage businesses to adopt circular models that promote reuse and recycling.

Estimated cost: Approximately €15,000 per business for training and consultancy.

10. Environmental Inspection and Enforcement;

Conduct inspections and enforcement to ensure local businesses comply with environmental regulations.

Estimated cost: Approximately €5,000 per year for inspections.

Payment and Cost Overview:

Sub-Category:	Estimated Cost:	Payment Options:
Sustainable Energy.	€15,000 per installation.	Subsidies and loans.
Waste Management and Recycling.	€10,000 per program.	Municipal funds.
Green Space and Urban Agriculture.	€5,000 per garden.	Municipal and private investments.
Water Management.	€20,000 per project.	Government subsidies.
Awareness and Education.	€2,000 per campaign.	Corporate sponsorships.
Sustainable Transport.	€25,000 per project.	Local and national subsidies.
Ecosystem Restoration.	€30,000 per project.	Private and public investments.
Sustainable Agriculture.	€10,000 per farm.	Subsidies and loans.
Circular Economy.	€15,000 per company.	Investments and partnerships.
Environmental Inspection and Enforcement.	€5,000 per year.	Government funding.

This approach to environment and sustainability focuses on local solutions that are easy to implement and have positive impacts on both the community and the environment.

G. Social Cohesion.

Community Development Initiatives:

1. Community Activities;

Organize regular events and activities that promote social interaction, such as neighborhood festivals and sports tournaments.

Estimated cost: Approximately €3,000 per event.

2. Cultural Exchanges;

Facilitate cultural events where diverse communities share their traditions and cultures.

Estimated cost: Approximately €5,000 per event.

3. Support for Vulnerable Groups;

Create programs that provide targeted support to vulnerable groups, such as the elderly, migrants, and people with disabilities.

Estimated cost: Approximately €10,000 per program.

4. Volunteer Work and Initiatives;

Organize volunteer projects and provide incentives for participation, such as certificates or small rewards.

Estimated cost: Approximately €1,000 per project.

5. Dialogue and Conflict Mediation:

Facilitate workshops for dialogue and mediation to resolve community conflicts.
 Estimated cost: Approximately €2,000 per workshop.

6. Educational Programs for Social Skills:

Offer courses to enhance social skills and self-development, such as communication and teamwork training.
 Estimated cost: Approximately €5,000 per course.

7. Mentorship Programs:

Establish mentorship programs where experienced community members guide and support young individuals.
 Estimated cost: Approximately €4,000 per program.

8. Information and Support Centres:

Set up local centres where residents can access information and support for social services and resources.
 Estimated cost: Approximately €20,000 for startup costs.

9. Emergency Assistance and Crisis Intervention:

Create a network of volunteers and professionals to provide emergency assistance and crisis intervention in the community.
 Estimated cost: Approximately €15,000 per year for training and materials.

10. Neighbourhood Watch and Safety Groups:

Organize neighborhood watch groups to improve community safety and foster social oversight.
 Estimated cost: Approximately €2,500 per group per year.

Payment and Cost Overview:

Sub-Category:	Estimated Cost:	Payment Options:
Community Activities.	€3,000 per event.	Municipal subsidies.
Cultural Exchanges.	€5,000 per event.	Sponsorship by local businesses.
Support for Vulnerable Groups.	€10,000 per program.	NGO and foundation funding.
Volunteer Work and Initiatives.	€1,000 per project.	Municipal and private subsidies.
Dialogue and Conflict Mediation.	€2,000 per workshop.	Local subsidies and sponsorships.
Educational Programs for Social Skills.	€5,000 per course.	Subsidies and private investments.
Mentorship Programs.	€4,000 per program.	NGO and local government funding.
Information and Support Centers.	€20,000 for startup costs.	Public and private investments.
Emergency Assistance and Crisis Intervention.	€15,000 per year.	Government funding.
Neighbourhood Watch and Safety Groups.	€2,500 per group per year.	Municipal funds and private contributions.

This structure provides a framework to promote social cohesion through a mix of community-driven initiatives and collaborative funding sources.

H. Technology and Innovation.

Technology and Innovation Initiatives:

1. Digital Literacy;

Offer courses and workshops for all age groups to improve digital skills, such as computer use and internet safety.

Estimated cost: Approximately €3,000 per course.

2. Access to Technology;

Provide free or low-cost access to computers and the internet in community centers and libraries.

Estimated cost: Approximately €15,000 to set up a computer lab.

3. Innovation Hubs and Makerspaces;

Establish spaces where people can collaborate on projects and access technology, such as 3D printers and other tools.

Estimated cost: Approximately €25,000 for the hub's startup costs.

4. Support for Startups;

Provide mentoring and financial assistance to startups and innovative community projects.

Estimated cost: Approximately €10,000 per startup support program.

5. Education in STEM Subjects;

Implement STEM programs (science, technology, engineering, and mathematics) in local schools and community centres.

Estimated cost: Approximately €20,000 for developing a school program.

6. Tech Events and Hackathons;

Organize events like hackathons to encourage creativity and collaboration in technology.

Estimated cost: Approximately €5,000 per event.

7. Collaboration with Local Businesses;

Promote partnerships between schools, universities, and local businesses to create internships and apprenticeships in tech sectors.

Estimated cost: Approximately €8,000 for program setup and management.

8. Innovative Solutions for Local Problems;

Encourage residents to submit innovative ideas to address local challenges, with prizes for the best proposals.

Estimated cost: Approximately €4,000 for awards and support.

9. Training for IT Professionals;

Offer specialized training programs for individuals seeking careers in IT or other tech-related fields.

Estimated cost: Approximately €15,000 per training program.

10. Cybersecurity Awareness;

Organize awareness campaigns about cybersecurity and data protection.
Estimated cost: Approximately €2,500 per campaign.

Payment and Cost Overview:

Sub-Category:	Estimated Cost:	Payment Options:
Digital Literacy.	€3,000 per course.	Municipal subsidies.
Access to Technology.	€15,000 for setting up a computer lab.	NGO and foundation funding.
Innovation Hubs and Makerspaces.	€25,000 for startup costs.	Sponsorship by local businesses.
Support for Startups.	€10,000 per program.	Investor and government funding.
Education in STEM Subjects.	€20,000 per program.	Education institution subsidies.
Tech Events and Hackathons.	€5,000 per event.	Sponsorship and participation fees.
Collaboration with Local Businesses.	€8,000 for program setup.	Funding from local businesses and government.
Innovative Solutions for Local Problems.	€4,000 for awards.	Public and private investments.
Training for IT Professionals.	€15,000 per program.	Subsidies and sponsorship.
Cybersecurity Awareness.	€2,500 per campaign.	Municipal and private subsidies.

This framework aims to strengthen community technological capabilities and foster innovation by ensuring access to technology, education, and collaborative opportunities.

I. Financial Inclusion.

Financial Inclusion Initiatives:

1. Basic Banking Services:

Encourage local banks to offer free or low-cost basic banking services to vulnerable groups.
Estimated cost: Approximately €10,000 for marketing and education.

2. Financial Education:

Offer courses on budgeting, saving, and responsible borrowing at community centres.
Estimated cost: Approximately €3,000 per course.

3. Microfinancing:

Create a microfinance fund for small entrepreneurs and startups lacking access to traditional bank loans.
Estimated cost: €50,000 as startup capital for the fund.

[The New World Creators Initiative~©™.] for all Living Souls on Earth.

4. Access to Credit:

Collaborate with credit providers to offer simple and affordable credit options for individuals with limited credit histories.

Estimated cost: Approximately €15,000 for setup and marketing.

5. Savings Services for Children:

Implement savings programs in schools to foster financial awareness among children from an early age.

Estimated cost: Approximately €5,000 for program setup.

6. Community Investment Clubs:

Organize investment clubs where members pool funds to save and invest in local projects.

Estimated cost: Approximately €2,000 for club startup costs.

7. Digital Payment Systems:

Promote the adoption of digital payment methods and mobile banking services within local communities.

Estimated cost: Approximately €8,000 for education and marketing.

8. Debt Counselling Services:

Provide professional debt counselling and advice for individuals facing financial challenges.

Estimated cost: Approximately €12,000 for program setup.

9. Participation in Social Enterprises:

Encourage residents to invest in social enterprises that boost the local economy.

Estimated cost: Approximately €4,000 for promotion and education.

10. Financial Support Networks:

Create networks where individuals with financial difficulties can support and advise one another.

Estimated cost: Approximately €1,500 for networking activities.

Payment and Cost Overview:

Sub-Category:	Estimated Cost:	Payment Options:
Basic Banking Services.	€10,000 for marketing.	Local banks and NGO subsidies.
Financial Education.	€3,000 per course.	Education institution subsidies.
Microfinancing.	€50,000 for fund setup.	Crowdfunding and private investments.
Access to Credit.	€15,000 for setup.	Partnerships with credit providers.
Children's Savings Services.	€5,000 for program.	Educational and community subsidies.
Community Investment Clubs.	€2,000 for startup costs.	Membership fees and local sponsorships.
Digital Payment Systems.	€8,000 for education.	Partnerships with tech companies.
Debt Counseling.	€12,000 per program.	Subsidies and private contributions.
Participation in Social Enterprises.	€4,000 for promotion.	Local government funding.
Financial Support Networks.	€1,500 for networking activities.	Sponsorship by local businesses.

This strategy aims to empower individuals and communities by providing essential financial tools, education, and support to improve economic stability and growth.

J. Safety and Well-Being.

Safety and Well-Being Initiatives:

1. Community Safety:

Organize neighbourhood watch groups and safety meetings to engage residents in addressing safety issues.

Estimated cost: Approximately €5,000 for training and materials.

2. Mental Health Services:

Provide free or affordable access to counselling and mental health services within the community.

Estimated cost: Approximately €20,000 for professionals and facilities.

3. Violence Prevention Programs:

Implement educational programs in schools focusing on violence prevention and conflict resolution.

Estimated cost: Approximately €7,500 per program.

4. Safety Infrastructure:

Improve street lighting and public spaces to enhance community safety.

Estimated cost: Approximately €30,000 for upgrades and installations.

5. Emergency Response Services:

Establish and support local emergency response initiatives, such as fire brigades and ambulance services.

Estimated cost: Approximately €50,000 for training and equipment.

6. Health Awareness Campaigns:

Run educational campaigns on topics like vaccinations and healthy lifestyles to promote community health awareness.

Estimated cost: Approximately €10,000 for marketing and materials.

7. Support Groups:

Facilitate self-help groups for individuals dealing with issues like violence, addiction, or other challenges.

Estimated cost: Approximately €2,000 for meetings and facilities.

8. Youth Support Services:

Offer programs for young people to support their personal and professional development.

Estimated cost: Approximately €15,000 for training and activities.

9. Domestic Violence Prevention:

Create awareness campaigns and support systems for victims of domestic violence.

Estimated cost: Approximately €12,000 for programs and marketing.

10. Crisis Intervention Teams:

Assemble crisis intervention teams to respond quickly to emergencies within the community.

Estimated cost: Approximately €25,000 for training and equipment.

[The New World Creators Initiative~©™.] for all Living Souls on Earth.

Payment and Cost Overview:

Sub-Category:	Estimated Cost:	Payment Options:
Community Safety.	€5,000 for training.	Local government and community subsidies.
Mental Health Services.	€20,000 for services.	Healthcare funds and local NGO's.
Violence Prevention Programs.	€7,500 per program.	Schools and municipal subsidies.
Safety Infrastructure.	€30,000 for improvements.	Local governments and infrastructure funds.
Emergency Response Services.	€50,000 for training.	National and local government funding.
Health Awareness Campaigns.	€10,000 per campaign.	Health organizations and corporate sponsors.
Support Groups.	€2,000 per meeting.	Community contributions and sponsors.

To effectively run the project at micro, macro, and meso levels, a team comprising various roles is required.

Total Annual Costs per Continent (2024):

Europe (e.g., 50 countries):

Monthly: €450,000 x 50 = €22,500,000
Annual: €270,000,000
Personnel: €24,500 x 50 = €1,225,000
Total: €271,225,000

North America (e.g., 3 countries):

Monthly: €450,000 x 3 = €1,350,000
Annual: €16,200,000
Personnel: €24,500 x 3 = €73,500
Total: €16,273,500

South America (e.g., 12 countries):

Monthly: €450,000 x 12 = €5,400,000
Annual: €64,800,000
Personnel: €24,500 x 12 = €294,000
Total: €65,094,000

Africa (e.g., 54 countries):

Monthly: €450,000 x 54 = €24,300,000
Annual: €291,600,000
Personnel: €24,500 x 54 = €1,323,000
Total: €292,923,000

[The New World Creators Initiative~©™.] for all Living Souls on Earth.

Asia (e.g., 49 countries):

Monthly: €450,000 x 49 = €22,050,000
Annual: €264,600,000
Personnel: €24,500 x 49 = €1,200,500
Total: €265,800,500

Oceania (e.g., 14 countries):

Monthly: €450,000 x 14 = €6,300,000
Annual: €75,600,000
Personnel: €24,500 x 14 = €343,000
Total: €75,943,000

Global Total Costs (2024):

To calculate the worldwide total costs, sum up the totals of all continents.

• Total Annual Costs:

+ €271,225,000 (Europe)
+ €16,273,500 (North America)
+ €65,094,000 (South America)
+ €292,923,000 (Africa)
+ €265,800,500 (Asia)
+ €75,943,000 (Oceania)

Total = €1,006,249,000

Personnel Costs per Continent::

Continent:	Total Personnel Costs:
Europe.	€ 1.225.000
North America.	€ 73.500
South America.	€ 294.000
Africa.	€ 1.323.000
Asia.	€ 1.200.500
Oceania.	€ 343.000
Total.	€ 4.459.000
